PRÉFACE

Dire de ce livre qu'on y a condensé la substance des dictionnaires de M. Brugsch et de M. Birch, du Livre des Rois de M. Lepsius, de la Géographie de M. Brugsch, en la présentant sous la forme la plus commode pour la rapidité des recherches, c'est en faire comprendre l'utilité. J'offre au lecteur français, après les avoir résumés et classés alphabétiquement, les renseignements contenus dans ces divers ouvrages, qui sont volumineux, d'un prix élevé et tous écrits en langue étrangère¹. Le dictionnaire égyptien-allemand de M. Brugsch, qui a rendu de si grands services, n'a qu'un tort, c'est de coûter 600 fr. Combien de débutants ont été détournés de l'égyptologie par l'impossibilité de faire cette dépense ! La *Géographie* du même auteur comprend trois volumes in-4° : c'est une merveille d'érudition ; mais chacun sait combien la recherche d'un nom de localité y est lente et pénible. J'ai dépouillé cet immense ouvrage : on trouvera dans mon vocabulaire, à leur ordre alphabétique, tous les mots qu'il contient, avec leur assimilation et le renvoi au tome et à la page.

Le vaste ensemble des noms de rois, de princes, de princesses et de personnages historiques que contient l'utile *Königsbuch* publié par M. Lepsius ne peut être gravé dans la mémoire de tout le monde ; il n'est pas d'égyptologue qui, en rencontrant

1. Les indications nouvelles ou rectifications résultant d'ouvrages postérieurs à ceux qui viennent d'être énumérés seront enregistrées dans le *Vocabulaire hiéroglyphique*.

sur un monument un nom-de reine, de père, de mère ou de fils de roi, ou le prénom d'un pharaon, n'ait été embarrassé pour l'identifier : sans perdre un temps considérable à feuilleter page à page l'ouvrage de M. Lepsius, on trouvera en une seconde, dans mon dictionnaire, le renseignement désiré. Chaque prénom royal constituant une assimilation du pharaon au soleil commence presque invariablement par le disque solaire : je préviens ici qu'on devra faire abstraction du premier signe et chercher le cartouche comme si le second caractère était le signe initial du groupe.

L'ouvrage se terminera par un index alphabétique de tous les mots français par lesquels sont traduits les groupes hiéroglyphiques, c'est-à-dire un véritable dictionnaire français-égyptien, dont la nécessité se fait sentir dans bien des cas, comme par exemple lorsqu'on rencontre dans un texte une lacune ou un mot douteux dont le sens est approximativement indiqué par le contexte. Cet index comprendra en outre : 1° les noms royaux ; 2° les noms géographiques ; 3° les noms de dieux et de personnages historiques. Les premiers seront écrits en *capitales*, les seconds en *italiques*, les troisièmes en *minuscules* plus grasses que pour les mots ordinaires.

Mon but est de fournir aux commençants un moyen d'aborder directement les textes, et à tous un *manuel* commode et pratique. Puissé-je aider ainsi à propager la science fondée par notre immortel Champollion.

"L'orthographe avec  montre bien
qu'il s'agit du radical sem et non
pas de s-met. Chabas et Devéria
confondent toujours ce mot judiciaire
avec  s-met. Il a pu y avoir des
confusions dans les transcriptions hi-
eroglyphiques, mais dans l'hieratique
 et  sont toujours distingués

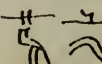

facilement par l'absence du trait vertical: $\text{h} = \text{w}$, $\text{h} = \text{w}$. Le sens général de semti provenant du radical sem auscultare en "l'instruction judiciaire" d'où le Copte $\text{C} \text{E} \text{E} \text{E} \text{E} \text{E}$ accuser. En n'est pas juger. C'est ce qui fait que c'est un des péchés du Chap. CXV du Todtenbuch: an semti a, j'en ai pas accusé, à tort, bien entendu. Dans le papyrus Abbott, de même, $\text{P} \text{A} \text{E}$ est la vérification des à an, $\text{P} \text{E} \text{A} \text{A} \text{E}$ un simple rapport, $\text{P} \text{w} \text{A} \text{A}$ est l'instruction par l'interrogatoire des prévenus et par d'autres moyens. Dans l'inspection des tombeaux trouvés inviolés on se contente de sap, vérification des lieux, mais pl. III... quand on s'aperçoit que le tombeau de Sebek em saf est violé, le gouverneur et les officiers $\text{E} \text{A} \text{A} \text{P} \text{w} \text{A} \text{A}$ font une instruction régulière et constatent la disparition des momies royales. De même quand on trouve

les autres tombes violées les gens de l'
 endroit donnent les noms des voleurs
 aux magistrats, on les emprisonne, puis
 ils en firent
 l'interrogatoire et ils dirent ce qui
 était arrivé. Le forgeron qui avait
 été soupçonné de vol dans les tombes
 royales étant mené sur les lieux
 montre l'endroit où il avait fait le
 vol: les magistrats firent questi-
 onner le forgeron d'une question rigou-
 reuse dans l'intérieur de la grande val-
 lée (pour s'assurer qu'il ne connais-
 sait pas d'entrée cachée dans d'aut-
